Spain joins Nato on a Sunday

Spain joined Nato, the alliance's sixteenth member, the letter of adhesion being delivered in Washingtin yesterday while in Madrid, King Juan Carlos took the salute on Armed Forces Day, the timing apparently not a coincidence.

Gibraltar and the possibility of Spain leaving the alliance promptly should the socialists win the next election are now the new problems in Nato's lap.

Pope says war belongs to the tragic past

The Pope's progress at the weekend was full of such intense images and symbols, as he delivered address after address in his slow, dramatic, Polich on his slow, dramatic, Polish accented speech be-fore crowds which seemed enthralled with the speciacle and the message.

Before Coventry yesterday, he had his triumph at Wembley, the first time he had a chance to employ his great oratorical skills before a vast assembly. It is stated that Mr Pym's insistence that in the end, no matter what casualties are suffered in the Falklands engagement with Argentine forces, negotiations will eventually have to take place with the junta, has severely annoyed Mrs Thatcher. The Pym line, her Cabinet friends argue, smacks of sell-out; argue, smacks of sell-out; and she will have nothing to

For she insists that the crisis has reached the point of no return, and she is thinking in terms of a long-term plan for the development and diversification of the islands' economy; to eradicate the need for dependence on the mainland.

Last week the Prime Minister requested a meeting with Lord Shackleton, the Labour peer who was commissioned by the Government to write a complex political power struggle. Mrs Thatcher has the natural support of a large number of Conservative MP's who refuse to countenance negotiation with the junta. It is stated by some of these would not have survived if the Argentines had accepted the earlier, generous terms which had been delivered by the Foreign Office; terms which have now been with The inner Cabinet division

Hong Kong and Bermuda.

But support for Mrs That-cher in her stand against Mr Pym and the Foreign Office extends beyond such figures as Mr Enoch Powell, to take in a number of silent MPs on the Labour benches.

On the other side of the divide, Mr Pym and Mr William Whitelaw, the Home Secretary, can count on the support of Mr Michael Foot, the Labour leader, Dr David Owen, the parliamentary leader of the Social Democrats, and Mr Edward Heath, as well as a strong cross-party mix of MPs who want to see the eventual reestab-lishment of friendly relations with Buenos Aires.
Mr Roy Hattersley, the

shadow spokesman on home affairs, said in a television interview yesterday that the Prime Minister was being both "short-sighted and fool-ish" in withdrawing all offers of negotiation.

He said on the Weekend World programme: "The idea that they (the Falklands) can retain and return to their previous status, in a perma-nent state of siege, in what has been called semi-war with Argentina, for a decade or more, is clearly absurd".

Junta admits losses but 'no surrender'

From Christopher Thomas, Buenos Aires, May 30

The Argentine Government is at last conceding that all is not well on the Falklands and

that the British are on their way to Port Stanley. News of the loss of Port Darwin and Goose Green was officially leaked by senior military sources but the junta was silent as it met to liscuss its severest serbacks. There was also no hint tonight that the Com-manders-in-Chief had any manders-in-Chief had any inclination to surrender and avoid the battle for Port Stanley, which inevitably will be fierce and bloody.

Over the weekend President Leopoldo Galitieri remained defiant as he headed

At one stage the assault looked in danger of faltering as the paratroops came under intense fire from tow heavy machine guns.

Only lightly defended.

According to an official communique from the Joint Chiefs of Staff at uoon today (4 p.m. BST), the total Argentine casualties in batters around the Falklands between April 2 and May 30 were 82 dead, 106 wounded and 342 missing. Early last week they said the tally was missing.

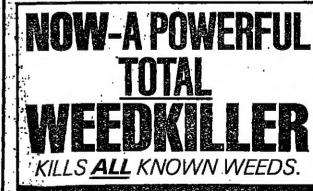

The Argentine press carried fuller than usual reports today of British claims without any accompanying Argentine denials. They quoted high military sources as saying that Argentine troops defending Port Darwin and Goose Green had given up only after using all their

ammunition. The junta said on Saturday that 4,000 to 4,500 British troops were in the Falklands. The mood today was that the war was far from over and that Argentina's best men and equipment were about to show their mettle in Port Stanley.

According to military spokesmen the tactic has been to keep the main defences in enemy for each piece of soil, sky and sea with growing courage and efficiency."

There was no word from the military about the Cap

The Pope urges an end to horror of war

From Arthur Osman and Tony Samstag, Coventry

The clelebration of Mass by the Pope and an open air congregation estimated at 350,000 at Coventry yesterday was the largest known gathering of Roman Catholics in

It was a spectacle of considerable splendour with wonderfully joyous and moving music which led one approving Welshman to re-mark: "We shall have to look to our laurels in Cardiff on Wednesday". It was a compli-ment of the highest order and well deserved.

Joy was the keynote of the essentially family occasion for a multitude which had waited expectantly through a wared expectantly through a
warm night and the welcoming light of a gloriously
sunny May morning.
Nevertheless, with Coventry's place in the tragic litany

of war's devastation — the spire of its old ravaged cathedral pierced the haze of the city's distant skyline — the Pope yet again returned to his theme of peace and reconciliation.

reconciliation.

Many thought his sermon the most emphatic he has yet delivered. After greeting his huge congregation he said:

in reality too. Our world is disfigured by war and violence. The rulns of the old and violence. The ruins of the old cathdral constantly remind our society of its capacity to destroy. And today that capacity is greater than ever. People are having to live under the shadow of a nuclear nightmare. Yet people everywhere long for peace. Men and women of goodwill desire to make common cause in their search for a worldwide community of brother-hood and understanding.

They long for justice yes! But for justice, filled with mercy. Being so close as we are to Shakespeare's birthplace, we would de well to consider this: "That in the course of justice none of us should see salvation. We do pray for mercy. And that same prayer doth teach all of us to render the deeds of mercy."

War should belong to the tragic, crazy past, to history; it should find no place on humanity's agenda for the future.

for the cause of peace. Let us pray earnestly for the special session of the United Nations on disarmament which begins soon. The voices of Christians join with others in urging the leaders of the world to abandon confrontation and to turn their backs on policies which require the nations to spend vast sums of money for weapons of mass destruction.

We pray this Pentecost that the Holy Spirit may inspire the leaders of the world to engage in fruitful dialogue. May the Holy Spirit lead them to adopt peaceful ways of safeguarding liberty which do not involve the threat of nuclear disaster.

Recent events in the South Atlantic, particularly the loss last week of HMS Coventry, inevitably intruded again, this time in the bidding prayer said by Mr John Phillips, a school teacher from Castle Bromwich, West Midlands. 'Tragedy' of unemployment

The smallest Roman Catholic diocese in England, but with possibly the biggest concentration of Roman Catholics, 500,000, gave the Pope his most tumultous welcome so far, as he arrived at Liverpool yesterday.

Perhaps 200,000 people cheered themselves hoarse as the Pope made a three-mile circuit of the airport. They broke through the crush barriers, they ran alongside the papal wehicle, they rushed from one side of the airport to the other to catch a second glimpse of him, and they waved banners, flags and even crutches as the sound of the jubiliation rolled all about him.

The crowd sang "He's got the whole world in his hands" and saw him off the airport on the six mile drive the circular of it. "whose resting place bears no stone or monument".

But if the crowd, drawn from across the north of England, took the more sombre side of his address to their hearts, they still cheered him with a warmth that was overwhelming.

Unemployment, he told them, tends to sow seeds of bitterness, division and even violence.

"The young unable to find a job feel cheated of their dreams, while those who have lost their jobs feel rejected and useless.

"This tragedy affects every aspect of life from the material and physical to the mental and spiritual". It was a matter of vital importance to all.

But his message was one of hope. He told them in Liverpool's greatest heritage was to found in all those who have struggled there to overcome the ils of society and build a common brother-hood.

Earlier, after his arrival at the airport, 25 minutes late, the wind whipping the white skull-cap from his head, he spoke to the crowd of the "tragedy" of unemployment in a city where almost one in five of the workforce is without work.

To the seafaring city, home of the Atlantic Conveyor, destroyed in the Falklands action, he recalled those who

Churches' pledges of reconciliation

The following are extracts from the Archbishop of Canterbury's address in Canterbury Cathedral on Saturday.

Millions are hungry and the sacred gift of life is counted cheap while the nations of the world use some of their best resources and much of their precious store of human ingenuity in refining weapons of death.

But Christians do not accept hunger, disease and war as inevitable. The present moment is not empty of hope, but waits to be transformed by the power which comes from a lively vision of the future.

of the future.

Remembering our beginnings:
celebrating our hope for the
future: freeing ourselves from
cynicism and despair in order to
act in the present it is this style
of Christian living which gives
shape to this service.

We recall one of the first missionary endeavours of the Roman Church, in its efforts to recapture for Christ a Europe overwhelmed by the barbarians. In the year 597, in the words of the English historian, the Venerable Bede, your Holiness's great predecessor "Gregory, prompted by divine inspiration, sent a servant of God named Augustine and several more God-fearing monks with him to preach the word of God to the English race".

word of God to the English race".

But our unity is not in the past only, but also in the future. We have a common vision, which also breaks up the lazy prejudices and easy assumptions of the present. Our Chapel here of the Martyrs of the 20th century is the focus for our celebration of a common vision. We believe even in a world like ours which exalts and applauds self-interest and derides self-acrifice, that "the blood of the martyrs wi .II create the holy places" of the earth.

Our own century has seen the creation of ruthless tyrannies by the use of violence and of cynical disregard of truth. We believe that such empires, founded on force and lies, distroy themselves. The kingdom spoken of by our Lord Jesus Christ is built by self-sacrificing love which can even turn places of horror and suffering into signs of hope.

If we remember that beginning in Jesus Christ our Lord, if we can face the suffering of travelling his way if we can lift our eyes beyond the historic quarrels which have tragically distigured Christ's Church and wasted so much Christian energy, then we shall indeed enter into a faith worthy of celebration, because it is able to remake the world, thanks be to God.

The following are extracts from the Pope's address:
My dear brothers and sisters of

My dear brothers and sisters of the Anglican Communion, "whom I love and long for" (Phil iv, 1), how happy I am to be able to speak directly to you today in this great cathedral. The building itself is an eloquent witness both to our long years of common inheritance and to the sad years of division that followed. Beneath this roof St Thomas Becket suffered martyrdom. Here too we recall Angustine And Dunstan

and Anselm and all those monks who gave such diligent service in this church. The great events of salvation history are retold on the ancient stained glass windows above us. And we have venerated here the manuscript of the gospels sent from Rome to Canterbury: thirteen hundred years ago.

gospels sent from Rome to Canterbury: thirteen hundred years ago.

Rincouraged by the witness of so many who have professed their faith in Jesus Christ through the centuries — often at the cost of their own lives — a sacrifice which even today is asked of not a few, as the new chapel we shall visit reminds us, I appeal to you in this holy place, all my fellow Christians, and especially the members of the Church of England and the members of the Anglican Communion throughout the world, to accept the commitment to which Archbishop Runcie and I pledge ourselves anew before you today. This commitment is that of praying and working for reconciliation and ecclesial unity according to the mind and heart of our Saviour Jesus Christ.

On this first visit of a Pope to Canterbury, I come to you in love—the love of Peter to whom the Lord said, "I have prayed for you that your faith may not fail; and when you have turned again, strengthen your brethren" (Luke xxii, 32). I come to you also in the love of Gregory, who sent St Augustine to this place to give the Lord's flock a shepherd's care (cf I Peter v, 2). Just as every minister of the Gospel must do, so today I echo the words of the Master: "I am among you as one who serves" (Luke xxii, 27). With me I bring to you, beloved brothers and sisters of the Anglican Communion, the hopes and the desires, the prayers and good will of all who are united with the Church of Rome, which from earliest times was said to "preside in love" (Ignatius, Ad Rom, Proem).

On the 'eve of his Passion, Iesus told his disciples: "If you

On the 'eve of his Passion, Jesus told his disciples: "If you love me, you will keep my commandments" (John xiv, 15). We have felt compelled to come together here today in obedience to the great commandment: the commandment of love. We wish to embrace it in its entirety, to live it completely, and to experience the power of this commandment in conformity with the words of the Master: "I will pray the Father, and he will give you another counsellor, to be with you for ever, even the Spirit of truth, whom the world cannot receive, because it neither sees him nor knows him; you know him, for he dwells with you, and will be in you" (John xiv, 16-17).

Love grows by means of truth,

Love grows by means of truth, and truth draws near to man by means of love. Mindful of this, I lift up to the Lord this prayer: O Christ, may all that is part of today's encounter he born of the Spirit of truth and be made fruitful through love.

Behold before us: the past and the future

the future Behold berore us: the desire of so many hearts
You, who are the Lord of
history and the Lord of human
hearts, be with us! Christ Jesus,
eternal Son of God, be with us.

Church leaders unite in putting their names to a new joint declaration

The following is the full text of the Common Declaration by Pope John Paul II and the Archbishop of Canterbury at Canterbury on

L. In the Cathedral Church of Christ at Canterbury the Pope and the Archbishop of Canterbury bave met on the Eve of Pentecost to offer thanks to God for the progress that has been made in the work of reconciliation between our Communitons. Together with leaders of other Christian Churches and communities we have listened to the Word of God; together we have recalled our one baptism and renewed the promises then made; together we have acknowledged the wilness given by those whose

2. The bond of our common baptism into Christ led our predecessors to inaugurate a serious dialogue between our churches, a dialogue between our churches, a dialogue founded on the Gospels and the ancient common traditions, a dialogue which has as its goal the unity for which Christ prayed to his Father "so that the world may know that thou hast sent me and hast loved them even as thou hast loved me " (John XVII, 23). In 1966 our predecessors Pope Paul VI and Archbishop Michael Ramsey made a common declaration announcing their miention to inaugurate a serious dialogue ation announcing their intention to inaugurate a serious dialogue between the Roman Catholic Church and the Anglican Communion which would "include not only theological matters such as Scripture, tradition and liturgy, but also matters of practical difficulty felt on either side" (Common Declaration paragraph 6). After this dialogue had already produced three statements on Eucharist, ministry and ordination and authority in the Church, Pope Paul VI and Archibishop Donald Coggan, in their Common Declaration in 1977, took the occasion to encourage the completion of the

ant questions so that the commission's conclusions might commission's conclusions might be evaluated by the respective authorities through procedures appropriate to each communion. The Anglican-Roman Catholic International Commission has now completed the task assigned to it with the publication of its final report and, as our two communions proceed with the necessary evaluation, we join in thanking the members of the commission for their dedication,

scholarship and integrity in a long and demanding task under-taken for love of Christ and the unity of his Church.

3. The completion of this commission's work bids us look to the next stage of our common pilgrimage in faith and hope towards the unity for which we long. We are agreed that it is now time to set up a new international Commission. Its task will be to continue the work already begun; to examine, especially in the light

of our respective judgments on the final report, the outstanding doctrinal differences which still separate us, with a view towards their eventual resolution; to study all that hinders the mutual recognition of the ministries of our communions; and to recommend what practical steps will be necessary when, on the basis of our unity in faith, we are able to proceed to the restoration of full communion. We are well aware that this new commission's task will not be easy, but we are

encouraged by our reliance on the grace of God and by all that we have seen of the power of that grace in the ecumenical move-ment of our time.

4. While this necessary work of theological clarification con-tunues it must be accompanied by the zealous work and fervent prayer of Roman Catholics and Anglicans throughout the world as they seek to grow in mutual

in every country, diocese and parish in which our faithful live side by side. We urge them all to pray for this work and to adopt every possible means of turther-ing it through their collaboration in deepening their allegiance to Christ and in wirnessing to him before the world. Only by such collaboration and prayer can the memory of past enmities be healed and our historical antag-nisms overcome

onisms overcome.

5. Our aim is not limited to the union of our two communities alone, to the exclusion of other Christians, but rather extends to the fulfilment of God's will for the visible unity of all his people. Both in our present dialogue and in those engaged in by other Christians among themselves and with us we recognize in the agreements we are able to reach, as well as in the difficulties which we encounter, a renewed challenge to abandon ourselves completely to the truth of the completely to the truth of the Gospel. Hence we are happy to make this declaration today in and communities are already

and communities are already partners with us in prayer and work for the unity of all.

6. With them we wish to serve the cause of peace, of human freedom and human dignity so that God may indeed be gloryfied in all his creatures. With them we greet in the name of God all men of good will, both those who believe in him and those who are still searching for him. still searching for him.

This holy place reminds us of the vision of Pope Gregory insending St. Augustine as an apostle to England, full of zeal for the preaching of the Gospel and the shepherding of the flock. and the shepherding of the flock. On this eve of Pentecost, we turn to ask the Father to give us another Advocate to be with us for ever, the Spirit of truth (cf John XIV, 16), to lead us to the full unity to which he calls us. Confident in the power of this same Holy Spirit, we commit ourselves anew to the task of working for the unity with firm faith, renewed hope and ever deeper love.

The 600 delegates attending this annual parliament of the Co-operative movement, will be greeted by leaflets, plac-ards and a group of fox-hun-tinf supporters, including field sportsmen and farmers, a spokesman for the British Field Sports Society (BFSS)

said yesterday.

A petition criticizing the CWS ban, due to start tomorrow, is also expected to be handed in. The BFSS said yesterday that they hoped the ban would be considered. Opponents of the ban

of foxhounds at the meeting to emphasize one of the possible effects of a wholesale hunting ban; large numbers of hounds would have to be shot because there to do, they claim. Delegates to the congress will be invited to a fringe

meeting tonight at the Brigh-ton Conference Centre, where speakers are expected to include Mr Jimmy Ed-wards, the comedian, who is Master of Hounds.

Some managers of CWS farms who are said to disagree with the ban may also be present. A BFSS spokesman added: "One suggestion that has been made is that it should have been left to the discretion of CWS managers to decide whether continuation of hunting was necessary as the least expensive way of keep-ing the fox population in check."

The CWS, Britain's biggest farmer, is banning fox hunting on 38,000 acres of its land. Hunts in the East Midlands and the South West are most affected. The Fernie Hunt, in Leicestershire, expects to lose a day's hunting every week. At risk

A mass lobby against a ban of fox hunting, instituted by the Co-operative Wholesale ociety (CWS), is scheduled a Brighton today as the 3,500 jobs are also directly involved in hunting, apart from the arcillary ones in from the ancillary ones in trades such as the farriers, feed merchants and riding kit

Meanwhile, meetings were held yesterday to settle the final conference agenda, but there was no indication that there was no indication that the hunting ban would be raised. The issue is being regarded as one to be dealt with by the CWS rather than the movement as a whole. A strong appeal for the

fragmented Co-operatives retail movement to move into a period of swift rationalization was made yesterday. The shadow of increasing

financila problems hangs over the congress, with more retail societies than has been known for years suffering A number of leading

societies, as well as smaller ones, have reported continued losses, some of them worse than in 1980. The Coop, on its retailing side, appears to have lost a further share in both the food and non-food market sectors.

Increased economic pressure in the High Street on retail societies was a factor behind the plan. Another was the progress made in securing mergers, of which there had been nearly twenty in the past year, Mr Perrow said. Others in the pipeline could reduce the number of societies to 150 within the

Butter claim 'unfair' to margarine

Advertisements by the Butter Information Council last October constituted an unfair attack on margarine and should not be offered again for publication, the Code of Advertising Practice Committee says in a report published today (Our Agri-culture Correspondent culture writes.)

The report broadly upholds a complaint made by Van den Berghs and Jurgens, part of the Unilever group, that the advertisements claiming that there were no grounds for switching from butter to margarine for dietary rea-sons, and that butter was a purer product with fewer additives, were misleading and unfair.

The council commented last night: "Twenty years of margarine propaganda has had the effect of creating in people's minds a view of margarine which is not in conformity with the facts.

Video distributors seek classification system

to cinemas are being released for home viewing, the British Videogram Association said yesterday. They want to introduce safeguards to protect the public from inadver-tently buying or renting videograms which might be grossly offensive to some adults or seriously disturbing to children.

They are holding talks with the British Board of Film Censors to try to introduce without delay a classification system. A working party headed by Lady Plowden, fomer chairman of the Independent Broadcasting Authority, has been set up by the board. The association is hoping

to introduce the system by the end of this year, and plans to ask producers and directors of videograms to submit all releases to a panel of film examiners for classification. The system could also help to stop the distribution of offensive or potentially harmful material by a request from the association to all its members not to handle

such material. "It will be for the police to consider whether such material is likely to contravene legislation such as the Obscene Publications Act", Mr Norman Abbott, the associ-ation's chief executive, said.

Video films that would be banned by censors if offered moves to ban advertising of to cinemas are being released material known in the trade "nasties", which show violence and sex. Some advertising for such

films has been condemned by the Advertising Standards Authority, and editors of trade and consumer magazines have agreed on consuladvertisements they will join-

tly refuse to carry.

Mrs Mary Whitehouse, president of the National Viewers' and Listeners' Association, said the setting up of the working party gave rise "to more rather than less anxiety". In a statement she said:
"Bearing in mind that video is played in the home at any hour, the presence, for instance, of Lady Plowden,

who recently sponsored the defence fund in support of the National Theatre in The Romans in Britain trial, does not breed confidence" Nor, she said, did that of Lord Harlech, head of the British Board of Film Censors. Material had been passed for showing in the cinema which would give rise to concern if shown on

Fears of Galtieri exploitation

Anxieties have been ex-pressed by members of the

Pope's entourage about political exploitation of his impending visit to Argentina. The Pope is leaving for Argentina on June 20 for a visit which he felt obliged to undertake in order to calm Argentine objections over his coming to Britain. welcomes and political talks from his programme. The Cardinal, an expert in international relations, stayed nearly three-quarters of an hour and so can be reasonably supposed to have talked over at useful length the British Government's view of the Falklands crisis and the Vatican's attitude.

There are some fundamental differences of approach, turning largely around the Pope's insistence that small conflicts bring the risk of nuclear conflagration. The Pope's emissary to Buenos Aires, Mgr Achille Silvestrini, has returned to Rome and reported in detail on the situation in Argentina in a telephone call to Cardi-nal Casaroli. Mgr Silvestrini

Advantages to Syria in backing Khomeini

Saiyida Zenab, Syria

The tomb of Saiyida Zenab, grand-daughter of the prophet, stands amid orchards and streams, the blue ceramic tiles of its mosque reflecting the afternoon sun at the back of the Haram, cows and sheep stray beside a muddy pool where an Iranian pilgrim driver is washing his bus after the long haul from Tehran. Inside, next to the gold and silver shrine, there are richly-embroided carpets of vellow and crimson upon which sit groups of Iranian women, their bodies covered in the long funeral chador which was once so symbolic of their revolution.

On the outside walls of the mosque there are some carefully selected photographs of Ayatoliah Khomeini and a series of drawings of Ayatollah Bakr-Sadr, Khomeini's apostle in Najaf who was hanged more than two years ago by the Iraqi Government. Bakr-Sadr's face is drenched in blood, his chest sprouting the tulips of

Islamic fundamentalism is much praised for its powers of courage and its ability to overthrow imperial dictators, not to mention its Khorramshahr, May 30. — stand against the allegedly The pride of Iranian troops. odious regime of Syria's Iraqi enemies. But the volatility and frenzy — the religious paramountcy — that gave the Iranian revolution its victory is not publicized in months of Iraqi occupation.

It awakens, perhaps, some recent, less happy memories closer to home. There was, for insance, that little matter of an uprising in the Syrian city of Hama just three months ago when rebels who also claimed an exclusive relationship with God virtually annexed the centre of

If the Iranian revolution is therefore seen through a glass darkly, the Syrian Government insists that its friendship with Iran is genu-ine enough. The economic protocol signed in Tehran by Mr Abdul Halim Khaddam, the Syrian Foreign Minister,

So is the more recent agreement by which Syria has made itself dependent on Iranian oil — albeit at a remarkably low price — and which has enabled it to turn off the taps to the Iraqi pipelines that carried Presi-dent Saddam Hussein's oil exports to the Mediterranean at Banias and Tripoli. If Syria's relationship with Iran turned out to be merely a device to isolate Iraq, it would be a remarkably effective one.

Syrian ministers deny such materialistic aims. Mr Farouk al Shara, the Minister of State at the Foreign Office in Damascus, traces Syria's relationship with Iran back to the first days of the revolution. "We were in favour of the revolution from the start because the Shah was friendly to the Israelis",

"So we did not side with the Iranian revolution be-cause we were hostile to the Iraqis. . . . As far as the Iraq-Iran war is concerned, we based our policy on the fact that it was Iraq who invaded Iran. If Iran had invaded

Iran. If Iran had hivaded lrag, we would have supported Iraq."

There are certainly economic advantages in the oil agreements with Iran. It could just be, however, that President Assad's Government is relying on one other factor to retain fran's trust and friendship. He and his most influential followers are Alawites, a sect which many Muslims regard as an of-fshoot of Shia Islam. Columbia Studios, producer Ray Stark and director John Huston, who spent the millions to dress her, have carefully orchestrated an outbreak of Annie mania to accompany her. Within the next few weeks, America will be bombarded with Annie Tshirts, books, records, lunch boxes, wind-up dolls singing "Tomorrow", Sandy dolls, Daddy Warbucks dolls, even Miss Hannigan dolls — gadgets, games and enough paraphernalia to overstock a nation full of toy shops.

They launched her with massive premieres in New York and Los Angeles.

They've spent \$12m to advertise her coming with billhoards, newspaper ads and a television blitz, all designed to ensure that the most expensive debut in Hollywood history will be a roaring success. Sad to say, they have reckoned to say, they have reckoned without the film. Now that she has been unveiled, Annie is in some danger of becoming the world's most expensive wall-

None of it, would matter of course, if the Annie story that had theatregoers burbing into their programmes all over the world, worked its sentimental magic on the screen. All, however, may not be lost for Annie. opera that has to be loved, and Opera North is, at the moment, only half in love with it. Where the orchestra with it. where the orchestra draws us in, the singers push us back; where the music speaks, the actions, too often, keep silence. From the opening notes of the Prelude we know that the English Northern Philharmonia, at least, conducted by Clive Timms, bas its heart in the right place. Bouncing and braying for the rustics, braying and urging the lovers' dissolving recitative, its solos sweetly sharpening our responses, it is all as bien chante as Massenet could have wished.

Mark Henderson's lighting, too, one or two moments of crudity excepted, follows the score's every turn, tinting the changing seasons, fluctuating from green-yel-low to blue-gold through the first interlude. It redeems, just, Maria Bjornson's tiresome tangle of dead white tree roots hanging on all four sides around the groups of furniture that pass for sets.

Without these aural and visual stimulants, the first act might well have fallen flat. Steven Pimlott's pro-Steven Pimlott's production does not, as yet, dapple the crowd and children scenes with the score's bright movement to offset the physical inactivity and emotional tension of the love scenes and soliloquies. And when Werther appears, hymning nature, there is something in John Brecknock's delivery, at once stagey and curiously restrained, that makes us disinclined to believe a word of it the is an experienced. of it. He is an experienced to believe on the first night that he was in love with love or anything else for that

A combination of vocal strain and stiff movement desiccated the ebb and flow of world-weariness and elan that can help to oil the English translation on its way. Werther may be an archetype of the self-aware lovelorn hero, but he must never be a mere caricature. Carol Wyatt's Charlotte keeps us at arm's length, too. Tense, hard, unyielding, vocally and physically, her mask-like face and closed, distorted vowels shut her off, for the most part, from the role and from her audience. Not so, ironically, with Stuart Harling's Albert, who makes the most of a thank-less part, nor with the lively, humane characterizations of the magistrate and neigh-bours from Thomas Lawlor,

can breathe its way into our Opera.; North's new production of Cosi fan tutte, in repertory in Leeds with Werther and The Flying Dutchman until Saturday, believes in itself, knows what

it wants, and achieves it fascinatingly and compellingly from start to finish.

Among Graham Vick's many community and experimental projects was his production of the Mozart/Calvino Zaide, and not a little of that same imagination is at work here.

Against Russell Craig's unchanging horizon of sea and sky, sun-drenched in the first act, moonlit in the second, all the tenderness, anger, humour and pain of Mozart's score vaccilate and turn against each other. When the sun shines again at the end, it could have been the end, it could have been anywhere or nowhere; but the strong cast of lovers, Eiddwen Harrhy, Robin Leggate, Patricia Parker and Robert Dean perform with a conviction and intensity that makes the lurch from one emotion to another, the emotion to another, the tugging distancing of Don Alfonso (Rodney Macann in fine form) unusually startling

and moving. Certain scenes impress themselves indelibly on the memory: the gusty energy of the bright blue opening, Fernando and Guglielmo swaying with their shadows from a spiral staircase as from a spiral staircase as from a ship's mast; the terzetto of silhouettes against the horizon; the swirling sea mists, veils, and masks leading into the wedding's playwithin a play. And, not least, there is Despina, in Kate Flowers at last a character as substantial and detailed as substantial and detailed as her music, worldly wise yet vulnerable, knowing and feeling so much more than

she says.

For these strengths, a little subilety has been sacrificed, yes: the production can, in some unnecessarily over-stated business, trip over its own cleverness from time to time. And David Lloyd-Jones's musical direction does not yet combine sweet-ness and strength, vitality and sophistication. It is not the Cost one would want to the Cosi one would want to see or hear every day, but simply because it takes so

John Cage

Chillingworth Road

At the age of 70 most artists can look back on a body of work which is beginning to be assessed as something single and substantial. John Cage's great achievement, however, is to be leaving behind him not a trail of masterpieces but an atmosphere.

Of course, he has not found it possible to avoid creating the odd important composition, like the prepared piano Sonatas and Interludes which John Tilbury played in the Cage weekend that has just opened the Almoide Festival But the Almeida Festival. But such works are incidental to the logic of purposelessness that Cage has pursued for half a century, irrelevant to his larger aims, of being random, eccentric, omni-attentive but single-minded, provocative and messy.

Roaratorio is all of these things. The first movement he conducted on Friday showed both sides: the opening Allegro of Mozart's day showed both sides: the opening Allegro of Mozart's Symphony No.33 was energetic, gracefully shaded, and full of happily expressed innner detail, yet the broad control over pace was unsure, and when ideas recurred, one sensed a change of grant was the need of gear - or, worse, the need That was not an isolated

Something similar had happened, too, in the third movement of No. 33, an Andante that began with a hit of Mozart's "Moderato" qualification but ended without it: all the same, this was an object lesson in combining expressive intensity with an elegant and polished surface to the music.

Another discipline Mr Vasary is not fully prepared to accept is that of the score itself. In the Prague first movement, although he did well to cope so persuasively with the flux of tensions in this specially complex structhis specially complex struc-ture (he commendably make the repeat), he rendered the powerful tuttis disagreeably choppy by eliminating Mozart's slurs: and this orchestra is not so tidy in ensemble as to be able to afford this luxury.

Canterbury's triumph: an embrace of love

The Church of England has never paid a more remarkable compliment to anyone than its service in Canterbury Cathedral for Pope John Paul. And it covered itself with glory in the process; of the Anglican putting right whatever is still crediting tactics have failed miserably.

It was absolutely impossible to ex-plain what happened between the Pope and the Church of England in Canterbury Cathedral except as an embrace of love; and the cold words of 1896 hardly need theological formula to bury

Every word, symbol and gesture from the Pope said that he was in the company of a church, a real church, and nothing but a church, alive and rich with spiritual vealth.

Anyone who tried at any point in that service to explain it as the Bishop of Rome meeting an assembly of heretical laymen, whose only duty was to return individually to the one true fold at once, would have found it just could not be done; every moment contra-dicted such a hypothesis. The truth is the very opposite. It was indeed an Anglican triumph; and they know it

Technical wizardry however cannot disguise the problems involved. But then antasia was always Walt Disney's problem child: it was inevitable since the idea of embellishing musical clasics with the visual antics of Mickey Mouse and a host of animated flora, fauna, demons and dinosaurs was a daring concept.

Long before the film's premiere in November, 1940. Disney had to abandon his original plan of showing Fantasia on a wide screen; and the revolutionary \$85,000 "Fantasound" stereo system devised at the studio to reproduce the nine-track recording through 90 speak-

gible rewards at the box office. The film was cut from 126 to 82 minutes and put on general release with a western. In 1956 Disney rereleased his experiment in "Seeing Music and Hearing on a wide screen with all but 10 minutes of the deleted footage restored. But. it was not until 1969, three years after Disney's death, that the film made a profit, the psychedelic generation.

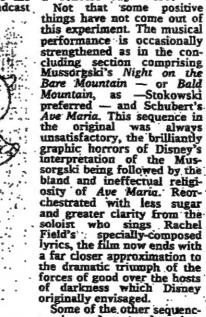

A decade later the film was given a shakily engineered stereo sound track and now it is back again with a new one altogether. "At last", say the publicity men, "Fantasia as it was meant to be heard". Clearly this is nonsense. Fantasia was meant to be heard with its score played by the Philadelphia Orchestra under the idiosyncratic direc tion of Stokowski, not with a different orchestra and con-

It is nice to report that the Pope can produce an immediate neat play on words to resolve a potential embarrassment. At the private reception on Saturday night, Cardinal Hume, making the introduction, said the Pope had asked him the basis on which the guests had been invited. A WHITSUN TO REMEMBER

The Visit - no need to say whose — seems to be going remarkably well. The English have not gone mad for Pope John Paul II. They would to treat the occasion as the equivalent of the World Cup, or even the Royal Wedding, though much of the media coverage might have incited them to do so. Fewer than expected have actually turned out to line the streets and buy souvenirs, in spite of the perfect weather. (The latter may actually have deterred the casual Pope-watcher, either by making the garden or sea-side seem more attractive or, in a ricochet effect, by making him expect prohibitive traffic-jams.) The response has been serious, never rowdy, but overwhelm ingly warm. The Pope has preached to congregations running into hundreds of thousands — millions if one includes the television audience. For the Roman Catholic population of England he has provided that sense of joy, courage and spiritual uplift that they were hoping for. The rest of us have been given much to respond to, and much to think about. The combination of the power of the man's personality and the majesty of his office is almost troubling.

The moment of supreme symbolic significance, even if technically outside the con-text of this "pastoral" visit. was of course Saturday's rejoicing that it turns out to service in Canterbury Cathberra worthy fruit of the edral — a moment that can Pope's visit. The work of the hardly have failed to move Anglican-Roman

They would have been letting down their own national traditions and international reputation if emphasis, what passion there they had. They have had the was in the laborious Polish to treat the occasion as the syllables, unfamiliar ver hear syllables, unfamiliar yet heavily charged with meaning.
"How happy I am to be able to speak directly to you today in this great Cathedral!" There can surely have been nor Anglican there, and few elsewhere, who did not share his happiness, and his long-

ing at that moment. Beside the richness of that human contact, the common declaration with Archbishop Runcie may seem almost prosaic. When the feeling of unity in Christ is so strong, what need we any further international commissions, one is tempted to ask. But churches do not live by charisma alone. Belief implies decuine, and church implies organization. That the Pope can be welcomed in Canterbury Cathedral, and can agree to come there as a guest of the Church of England, is already something wonderful. But he cannot yet say Mass in the church where Thomas Becket fell. There are many things about the faith, and about its earthly organization, on which Anglicans and Roman Catholics do not yet

Much therefore depended on that common declaration, and there is much cause for Catholic

much misunderstood in some quarters, is warmly and de-servedly endorsed. A new Commission is to be set up to carry on the work, examining outstanding doctrinal differences, preparing for a mutual recognition of ministries and even recommending practical steps for the restoration of full communion. That is looking a long way ahead, and the ing a long way ahead, and the two prelates are right to stress that "this new Commission's task will not be easy". But their willingness to envisage and authorise the task is in itself a most encouraging act of faith.

It seems extraordinary now to think how nearly this visit did not happen, so far does it seem to soar in significance above the sad events in the South Atlantic. No one in Britain, thank goodness, has tried to use it to claim papal support or blessing for our war effort against Argentina. The British government showed commendable good sense in refraining from any contact with the Pope, so that the visit could go ahead without risk of that misinterpretation. That was one price that had to be paid. The other was the agreement to visit Argentina immediately afterwards. It is to be hoped that the Argentine government will show comparable good sense and restraint in that respect, and not use the Pope's visit to try to accredit the idea that the conflict is some kind of holy war between a Catholic country and a Protestant one. The Pope remains uncontaminated in Argentine eyes by any association with Mrs association with Mrs Thatcher. He should be allowed to remain similarly anyone who watched it. The International Commission, so uncontaminated by associations of humility and sin-recently completed and so ation with President Galtieri.

THE SUPPLY SIDE HAS TO GIVE

have had a worse parting gift they have failed to reach any before setting out for the consensus of a second issue, Versailles economic summit than the one given to him by Congress last week. Now that than the one given to him by is to be made.

Congress last week. Now that The issues which divide the House of Representatives. Congress and the President has decisively rejected budget are predictable ones. The proposals put forward by Democrats want more money Republican Congressmen (and for social services and the acceptable to the Administration), it seems very unlikely that any compromise to cut the United States budget deficit can be achieved. In the House of Representatives, proposals which are broadly consistent with the decisions the Senate have been rejected in favour of alternatives giving more money to

health care. There are two quite seperate issues at stake in assessing what needs to be done to the United States Budget. The first is how much has to be achieved in the way of reducing projected budget deficits in the years ahead. On present trends these could be over 200,000m dollars by 1985, more than even the United States economy can afford. Both the administration and Congress have been forced to realise that deficits like this

President Reagan could not are a recipe for disaster. But Administration are willing to just how the cut in the deficit

> for social services and the poor; and less money for defence. The Republicans in Congress and the Administ-ration want to roll back the means that most Congressmen have no interest in reaching an agreement. Any medicine to reduce the size of. the deficit is bound to be unpleasant to take; so it is natural that Congressmen wanting to get re-elected should try to put off taking it until after the election.

Natural, perhaps, but extremely damaging for the long term health of the American economy. Interest rates in the US have stayed very high whilst inflation has come down. This means that in real terms interest rates are at higher levels than have been seen since the slump of 1929. The prospect of huge federal budget deficits will keep interest rates at that level for some time to come. Unless Congress and the make very big concessions to each other's position the market on Wall Street will keep interest rates high and the private sector of the American economy de-pressed This combination of big budget deficits and a crippled private sector is not what the American people voted for when they elected

Mr Reagan President.

The President can do only a limited amount to force Congress to take a more responsible attitude. One thing which he could do would be to remove from them the excuse that the deficit comes not from excessive spending but from a tax-cutting spree that the country cannot afford. If President Reagan were willing to make the gesture of scrapping the final round of tax cuts which he is proposing this could go a long way to persuading financial markets that the administration now puts fiscal caution above its more fanciful "supply-side" notions for trans-forming the economy over-night. The fall in inflation is the great success of the first 15 months of Mr Reagan's administration. If he wants to make sure that inflation remains low and that the private sector is not forced to pay the whole price of achieving that, he should now be prepared to make sacrifices in his programme to get budget

Stansted airport

From Mr Graham Bright, MP for Luton East (Conservative) Sir, The arguments put forward (feature, May 19) by your Transport Correspondent, Michael Baily, in favour of a major expansion of Stansted airport to cater for 15 million assenters. passengers a year rest on a number of fallacies.

A fifth terminal at Heathrow

would provide this extra capacity at half the cost (although it could not be regarded as a substitute for the second stage of expanding Stansted's capacity by a further 35 million as Mr Baily so implausibly imagines). Together with a second terminal at Gatwick and full utilisation of the existing capacity at Luton and Stansted, the present system has enough flexibility to cope with the anticipated level of passenger traffic to the end of the 1990s.

Both the British Airports Authority and your correspon-dent ignore the unnecessary additional costs to the airlines of developing Stansted: these costs ultimately have to be borne by air travellers. And they seek to minimise the emvironmental damage which will be done to north-west Essex.
Until the British Airports Auth-

ority's monopoly is broken, it will not be possible to devise a sensible solution to the capital's air traffic problems, let alone provide positive help to Scotland and the regions. Yours sincerely. GRAHAM BRIGHT.

House of Commons, Aid to business

From Mr P. A. Bayliss Sir, One pleasing aspect of the moves made by the banks into

mortgage finance and the subequent consideration by building societies of cheque accounts and a new Building Societies Act is the creation of an atmosphere in which it is possible to debate the future of both institutions. No doubt banks, will continue to provide finance for house purchase, but building societies are likely to remain the traditional source of this finance. I would draw your attention, however, and draw your attention, however, another modest, but important, proposal for the future of building societies which allows them to retain their traditional, form of security — the house — and at the same time contribute to British business recovery.

For many people a large proportion of their personal wealth is tied up in the house in which they live. By early middle age their mortgage is well on the way to be being paid off, but, in effect, the part of their personal assets represented by their house is frozen and unavailable to finance enterprise. If building societies offered additional mortgage facilities on the house to a prospective small business invesprospective small business investor then some of this wealth could be released and the individual could be assisted either to set up his own business, or participate in the financing of somebody else's, hopefully with success and in time employing

An example may illustrate the idea with more clarity. Say a house worth £50,000 has a mortgage outstanding of £10,000; a potential investor could take a further mortgage for £5,000 for investment in a business. No doubt this £5,000 would do no more than supplement the total amount of capital needed, rather than provide the total source of

others.

finance required. However, this proposal would provide a most useful source of finance to supplement recent Government intiatives, such as the loan guarantee scheme and various business development packages provided by banks, particularly as it could take the form of equity capital.

deficits down.

The £5,000 loan would be relatively cheap for the investor as well, with 13.5 per cent interest comparing favourably with the 17-18 per cent interest on other sources of finance now available. He would also have a league period for repayment

available. He would also have a longer period for repayment.

I have been assured that no legislation exists which would prohibit building societies undertaking such further advances. They would not, for example, have to judge the commercial viability of the investor's idea; would have to judge they would have to judge. rather they would bave to judge if the value of the house would cover any default on the additional advance. Some building societies have granted such additional mortgages, although no clear policy appears to exist to guide local branch managers.

Perhaps it is time for individual building societies and the Build-ing Societies Association to consider this proposal and come out with a clear policy line. If they want, as the deputy chairman of the association suggests, to provide loans for kitchen equipment and carpets, as seems to be the inference from the report in The Times of May 20, surely they could help foster productive enterprise? Yours faithfully. PHILIP BAYLISS, ... Deputy Chairman, Association of Independent

Businesses, As from: 38 Chancery Lane, WC2. May 27.

It is in the context of these factors that the interests of the islanders must be considered. They must not be subjected to a regime that is disagreeable to a them; but they have learned the hard way that HM Government are unlikely to provide them over the long term with adequate funds for economic development or with adequate means of with adequate means of defence against determinedly hostile neighbours. The status quo ante bellum is unlikely to suit the islanders, and of course not all of them may stay in the

Immediately no doubt the existing constitution and the British administration must be restored. However HMG would be very unwise simply to brush off as untimely any statement about the longer term future. From Mr D. C. Potter, QC Sir, Now that the Falklands conflict is coming to a bloody climax may I express a view that I think is widely held in Britain: that our quarrel is not with the Argentinian people, only with its blundering and aggressive

Surely our political leaders should already have made it clear, over and over again, that we are determined, come what may, to restore as best we can our former friendship with the Argentinian nation. I have not heard or read any clear indication of this from any politician (save perhaps those who oppose the whole ex-pedition); but I hear it repeatedly

When considering the unquestioned level of support the American administration has received from Mrs Thatcher and her government on such crucial matters of international concern as Iran, the American policy towards Poland and Afghanistan, as well as Russia and perhaps most significantly Nato, I find it unacceptable that the half-baked utterances coming from the vicinity of the Oval office are the absolute limit as to how far the American administration is prepared to publicly go on record on Britain's behalf. Further, such weak statements coming from a president who campaigned vigorously for my country's highest office on a platform laced with cries for renewed concern and awareness of the importance of living in a democracy, the

Media attitudes

From Mr John Hope Sir, During the past 24 hours I have happened to be in conversation with 12 individuals range ing from two house painters to a university don, three of them women, and have listened to their opinions about the Falklands

war.
To simplify, three were, in varying degrees, "against" it, the remainder "for" it. What they all agreed, however, was their disgust or anger at the "masochistic relish" with which the media are reporting British losses.

I, and I believe, many others, also deplore the media's apparent obsession with fear, bereavement, and suffering, while they ignore, or understate the courage, devotion and high confidence of the British forces as well as their successes. (Compare, for instance, the amount of space given to the destruction of four Argentine fighters and the huge coverage of the naval losses).

You conclude your leading article, today (May 27) by saying that loss of hope rather than loss of life is the factor that decides wars. By its negative and defeatist reporting the media seem to be doing their best to ensure-that, in this war, hope will be the second casualty. Yours faithfully,

JOHN HOPE, 20 Sumner Place, SW7. May 27.

War reporting

From Mr R. F. Bennett Sir, Mr Wain's reply (May 17) to Mr Downie's criticism (May 11) of the BBC's speculation about British moves round the Falkland Islands does not hold water. "It is the task of the intelligence staff', he writes, "to put them-selves into their opponents' shoes selves into their opponents snoes and to assess options, capabilities, perceptions and intentions".

Exactly. But they sometimes make mistakes. In June 1944 the German intelligence staff believed that the invasions would come in the Pas de Calais, not in

Normandy, with the result that divisions which might have endangered the first landings were kept well away from the battle area to guard against an imaginary threat. In December 1944 the Allies failed to read the signs of a coming enemy offen-sive in the Ardennes, the most lightly-held sector of their front. lightly-held sector of their front.
Intelligent but uninformed speculation may unwittingly give a damaging hint of the truth. It was partly to prevent inadvertent betrayal of his plans that Montgomery took the war correspondents so much into his confidence before Alamein. Then, and in the South Atlantic now, the limited number of tactical options open to the British commander open to the British commander nakes speculation particularly dangerous.

Yours faithfully, RALPH BENNETT, President, Magdalene College,

preceded the recent battle, and probably in any case. But broad outlines of a plan could be put forward.

One possible model would be for some kind of International Council, preferably associated with the United Nations and with the United Nations and including representatives from the Argentine, other Latin American countries and the U.S.A., to deal with further controlled settlement of the islands, economic development on an international basis, and for shared defence. More could no doubt be suggested even at a preliminary stage.

Stage. It is above all vital that a generous and far-sighted state-ment of broad aims should be discussed in Parliament and made with as near as possible to a consensus of British opinion. Once made, it should remain on the table and not be withdrawn at the first sign of hostile reaction in Argentina or elsewhere in Latin America, or in the United Nations.

Suez and now

From Dame Alix Meynell Sir, In drawing what he calls parallels between today and Suez, Anthony Eden's biographer (fea-ture, May 15) ignores almost all the basic facts: the Suez Canal was not British sovereign terri-tory but Egyptian (though leased to the company) and we were the aggressors on Egyptian territory, not the aggressed against, as now in the Falklands; Eden did not first seek the support and help of the United Nations and kept even Eisenhower in ignorance; France and Israel were then our only

Unanimity in EEC dealings

From Mr Leolin Price, QC Sir, There are several answers to Mr Robert Saunders, whose letter about UK obligations to the EEC about UK obligations to the EEC is published by you today (May 27). The first and principal answer is that the negotiations which preceded our entry were concluded on the basis of understandings which have never called for this country to adopt the attitudes which he, like other enthusiasts, would impose on us. The White Paper of July, 1971 (Cmtd 4715) was specific about this: "On a question where a Government considers that vital national interests are involved, it is established that the decision is established that the decision should be unanimous" (para, 29). In winding up the extended debate in the House of Commons on October 28, 1971, the then Prime Minister said (823 Hansard 2207): "Unanimity" was the result of the Luxembourg agreement which the Community accepted, which we accept-Everyone knew that our entry

was on that basis; and everyone who considers the matter objectively knows that this essential basis on which we entered the Community was thrown aside by those who purported, against our veto, to vote the recent farm price increases into operation. It must be the duty of our Westminster Government to rewestminster Government to re-store, without delay, the basis on which our membership of the Community was established and has always rested. When our Westminster Government regards a matter as falling within the unanimity rule we cannot permit unanimity rule we cannot permit other governments, or any governmental organ of the Community, to overrule our Westminster Government.

Mr Roy Jenkins may object, plaintively, that this insistence on the right to require unanimity is "a recipe for a static Community"; but I remember that the late President Pompidou, as well as his great predecessor do

as his great predecessor de Gaulle, regarded this right a essential to the workability of th Community; and, looking impartially as I can at t conduct by the Community of affairs during the period of membership, I do not think its role or powers should stretched in any direction ur has learned how to melficiently and sensibly the (but, fortunately, limited); so far entrusted to it. fīrst. ist, it seems to me, is precisely to come to terms with the evil in himself through his characters. and he can redeem that evil insofar as he interprets it and mediates his conquest of it for others. The Catholic artist must go further still I think. His struggle with darkness must be shared not only with his readers but with God who ultimately takes a hand in all he writes, thinks or does. This can be such a painful business that it is hard to see how Mr Read can say that "Art portrays the pleasures of this life, not the next".

Perhaps the debased represen-tation of the sexual union in modern writing characterizes, merely a faithless, loveless age. Surely Mr Read would acknowledge that the central act of marriage both reflects and cel-ebrates the love of God incarnate in His Church. The soft porn which sometimes parades itself as modern literature is offensive; but a failure to recognize the holiness there is, even in a damaged Creation, may be more dangerous. After all, Christ loves t so much that He chose to enter it, died to save it, and has redeemed it. Yours faithfully.

There is no sin which cannot be furgiven, if we approach the thrane of meres with humble and conside hearts. No evil is more powerful than the infinite mercy of God. In becoming man, Jesus emered completely into our human expensence, even to the point of suffering the final and most cruel effect of the power of sin, death on a Cross. He really sin, death on a Cross. He really became one like us in all things but sin. But evil with all its power did not win. By dying, Christ destroyed our death; by rising, he restored our life; by his wounds we are healed and our sins are forgiven. For this reason, when the Lord appeared to his disciples after the resurrection, he showed them his hands and his side. He wanted them to see that the victory had been won; to see that he, the sin, death on a Cross. He really them to see that the victory had been won; to see that he, the Risen Christ, had transformed the marks of sin and death into symbols of hope and life.

In many countries, unemployment has rises sharply and caused hardship to individuals and families. It tends to sow seeds of bitterness, division and even violence. The young, unable to find a job, feel-cheated of their dreams, while those who have lost their jobs feel rejected and useless. This tragedy affects every aspect of life, from the material and physical to the mental and spirkual.

their studies and exams, including the chance to meet famous personages of the day in coffee house conditions, and to talk to them, about books of theirs that are on the syllabus.
Staff have agreed to work extremely long hours in a spirit of enthusiasm. That is

partly because they have all been given their own tall desks and quill pens, partly because they are all members of the Guild of Bank Clerks, a Victorian trade association with very moderate demands which has not been active much since 1883. If loans made to such countries as Poland are not

repaid by the agreed time, no financial penalty will be inflicted; instead the bank merely asks for the right to take over the running of that country until its finances are on an even keel. Many directors of the bank aiready have personal experience of running countries, some-times as Prime, Ministers, sometimes in a more lowly capacity as crowned head.
Should the monarch of

wish to raise money for making war or sending an expedition in search of valuable minerals they need only proceed on time-honoured manner up the river Thames by barge to apply personally to the bank manager or, if preferred, to any former crowned head on our staff.

ROMY SCHNEIDER

Versatile screen actress

Romy Schneider, the film actress, was found dead in her Paris apartment on May 29. She was 43 and had apparently suffered a heart

She appeared in more than 50 films, the first when she was 14, and after imerging as one of the leading actresses of the German chema in the 1950s she gained an international reputation working for such directors as Viscouti, Welles and Losey. Elegant and sentiuous, she had a striking streen presence but despite excellent performances of both comic and dramatic parts, her and dramatic parts, her career did not quite fulfil its early promise. Her private life was touched by tragedy: her 14-year-old-son was killed last year when he slipped and was impaled on fron spikes while climbing a sence.

Romy Schneider was born Rosemarie (later contracted to Romy) Albach-Retty in Vienna on September 23 1938, Her father, Wolf Albach-Retty, was a stage and screen actor and her mother, Magda Schneider, a popular star of Anstrian and German films. It was with her mother that sie made her screen debut in 1853 and the two of them acted together in several subsequent films, mainly romanuc; comedies, After playing the young Queen Victoria, Romy Schneider went on to appear as the Empress Enzabeth of Austria in a series known as the "Sissi" films and she was also in re-makes of two celebrated German pictures of the pre-War period, Der Letze Mann and Madchen in

A friendship with the actor, Alain Delon, led her fo the French cinems but she did not become though outside the Confident until Luchino Viscont picket her for the leading part in his

teau film, Boccacio 70, in 1962. Soon afterwards, she gave a telling performance as the maidservant Leni in Orson Welles's film of Kaf-ka's The Trial and then was taken up by American direc-tors, Carl Foreman for The Victors and Otto Preminger for The Cardinal. She went to Hollywood to make a comedy, Good Neighbour, Sam with Jack Lemmon, and was one of several international stars supporting Peter Sellers in What's New, Pussycat? In the late 1960s she made three films in Britain but concentrated on the conti-nent and particularly France, Joseph Losey's The Assassin-ation of Trotsky and the Empress Elizabeth again in Viscour's Ludwig, while among her more notable krench films were the macabre Le Trio Infernal and Chabrol thriller, Les Innoents aux Mains Sales.

Romy Schneider was twice married, firstly to the German actor-director. Harry man actor-director. Harry men until Meyen, who committed subpicked her was to the photographer part in his Daniel Basini.

Ivan Lendi, who had been favurite in win the men's singles title, was beaten 4-6, 7-5, 3-6, 6-4, 6-2 by Mats Wilander, of Sweden, aged 17, in the fourth round of the French Championship here today. Wilander left school less than two years ago, and this was his first five-set match. It lasted three hours and 598 minutes.

Lendi lost last year's final in five sets to Bjorn Borg, who won the first of his six French titles in 1974 at the age of 16. There was no Borg in the draw this time — or was there? It must have seemed to Lendi that, except for Wilander's curly hair, Borg's ghost has come back to haunt him. Wilander plays the same way, has the same quick-witted tactical sense (as precocious in Wilander as it used to be in Borg) and the same inscrutably try composure, no matter how critical a rally may be.

whatter now critical a rally may be.

Wilander already ranks eighteenth in the world. We knew he was good. We did not know how good he could be, and today's result represents a big advance rather than a terminus. Asked to compare the two Swedes, Lendi quietly pointed out that Borg was a great champion: "We will have to wait and see if Wilander can play as consistently." Wilander still had a maximum of three matches to play here, Lendi said, "It will be very difficult for him, mentally and physically, to outplay the others, one match does not make a champion."

That was reasonable, Indeed.

That was reasonable. Indeed, Lendl's entire conduct of the inquest was reasonable — and inquest was reasonable — and gracious. His own timing has been awry, he said, especially on the forehand. "Without that shot, I cannot do much. And he was playing deep, so I did not have chances to come in. I had to take risks a little and those shets I missed, I practised hard for this, I tried hard. I did my best. But I was outplayed by somebody who played better. His best shot was probably the backhand down the line."

Lendi became awfully appre-hensive, inhibited and vunerable as he gradually realised that his forehand was much less predict-able than the cool, flowing efficiency of Wilander's exper-tise. The authority drained out of Lendi: he was like a man walking alone in the woods at night and hearing strange noises. The end

was a merciful release from tormain. The only other players to beat Lend; this year have been Yampiek Noah and (twice) Guilt-lermo, Vilas. Practice for Indians specially Viswanath

By Richard Streeton

Southampton: Hampshire with all second innings wickets in hand, lead the ladians by 97 rans.

On a slow patch that bore comparison, with Kanpur, or Delhi, the ladian innings was dominated by Viswanath who made his first 100 of the tour in his, own felicitous syle. A reshuffled barring list gave several players nome practice prior to this week's one-day international before the ladian declared and left Hampshire 70 minutes batting at the end.

It also provided the indian bowlers with a further much needed work-out. The lack of penetration in the Indian attack was emphasized on Saturday when Hampshire became the fifth first class opponents to declare against them. Notting-hamshire are the only side the Indians have dismissed.

Viswanath, who also made 100 against Hampshire in 1971 at Bournemouth, survived a hard caught and bowled chance to Southern when 27 but otherwise drove and played off-his legs with amooth timing and grace. It was only his fourth innings of the tour but his touch was there from the start and he remains as eminently watchable as any player in the world.

ROUNDUP Kashirin's lead extended as Soviets tighten grip

A warm weekend in the Midlands, during which three states were contested, saw the Milk Race experience a phase of complex technical cycling from which the leading Soviet sextet emerged unscathed, John Wilcockson writes.

Indeed, the man in the yellow jersey. Yuri Kashirin, extended his lead by winning a time bonus of 20 seconds after finishing second in the 28-mile circuit race yesterday afternoon. Unhappily, the British riders were content to follow rather than create the 20,000 saw Piasecki, an exuberant Pole, win the stage from Logwin of the Soviet Union. As a result, Logwin moved up to fourth overall, eight seconds behind Kashirin.

However, Kashirin's reply washis second place in the Sandiacre Circuit Race in which he won the bunch sprint, 52 seconds behind Hons-Petter Oedegaard, the talented Norwegian.

follow rather than create the action and Bob Downs, their only hope of success, dropped to sixth overall.

Yesterday the 60 survivors reached Sandiacre after a 65-mile stage from Stoke. Downs and three team-mates were alert enough to infiltrate a group of 21 riders that moved clear on a windswept plateau after 11 miles, but they did not capitalize on their efforts.

Uncini and the American former world champion, Kenny Roberts, who finished fourth on his Yamaha, now jointly lead the world championship, "It is hard season to win," Uncini said, "But maybe I shall win, I hope so."

Young Freddie Spencer, the highly talented American Honda rider in his first grand prix season, finished second. He was 12.72 seconds behind Uncini and set a new lag record, Behind him was New Zealand's Graeme Crosby, riding a Yamaha for the Agostini team.

Crosby made the 40-lap race more than a gruelling procession as he crept up the field, pressing and passing Marco Lucchinelli and Roberts.

One factor libat will be taken into account when selecting the successful crews is that the racing in Mexico will be held in the larger 470 class, not 420s.

On results alone, however. the larger 470 class, not 420s.
On results alone, however, Minnie Currey and Jill Blake have a slight lead on points from Julia Gray and Sue Chisnall, with three other crews within a few points of them. There has been a different winner of each race so far, with places changing in relation to the wind strenght. Today's conditions will undoubtedly play a part in determining the championships, but not necessarily the lucky crews who go to Acapulco.

Hall gives proof of his worth

Daryi Hall, the 16-year-old from Chingford, showed on Saturday why he is a fine prospect to emulate his cousin Ray Stevens, five times a national champion, Richard Eaton writes.

Hall, national age group champion three times, helped the East to a 3-2 victory against the West Midlands in the Nat West Bank regional finals at Bletchley. The East also won 3-2 against the South — despite tithe the South — despite the presence of the European junior champion Helen Troke, — and in the final, Hall, partnered by Martin Lawrence beat Adrian Casey and Chirs Ibbotson 15-9, 15-9.

Confusion reigns under Stein

There is a belief in Scotland that had Jock Stein been persuaded to take a grip on the country's international fontball in the prime of his career the unquertionable individual ralent always available would have been brought to fruition. Whether he can still live the reputation and bring success in the World Cup next month is debatable, both after Saturday's defeat by England and last week's frustrating 1.0 win over Wales.

The quality most expected of Mr Stein was pragmatism, yet in the last matches before the World Cup in Spain, he has brought little but contrision. Against Wales he asked Sounces to be the 'libern', Admittedly he made no promises that the system would be retained in Spain and, sure enough, Sounces was restored to midfield on Saturday. But then, for the first half against England, he placed three ment in the centre of the defence and, against all advice.

England's preoccupation with containment was frustrating. Scotland chose to let Sturrock have his chance where Jordan had failed but were still unable to

The predictable football of Scotland's midfield did not persuade Mr Stein to make last-minute changes in his plans for Spain. Chance of revenge for Slough

From Sydney Friskin,

Slough. Amsicora Cagliari

Slough will play off for the bronze medal in the European club championship here tomorrow against Real Club de Polo, Barcelona, the side that beat them for the same prize last year. The holders, Klein Zwitserland of the Netherlands, will meet Dinama Alma Ast (ISSP) in the Dinamo Alma Ata (USSR) in the

final.

A smooth victory today over the Italian champions Amsicora Cagliari, which follows yesterday's equally convincing 5—2 win over Gladbacher of West Germany, started with Barber converting a short corner, which was followed by goals from Saini and Daved and Saini again to put Slough four up at the interval.

Bruising exit for **Simply** Great

By Michael Phillips Racing Correspondent

Simply Great is not of Wednesday's Derby. That was the bitterly diappointing news to break from Warren Place, where he is trained by Henry Cecil, yesterday morning. After the colt, who was to ridden by Lester Piggott, had over-reached and struck into a heel while out at exercise on Friday morning Cecil said that he hoped that the wound would mend in time for Simply Great to continue his Simply Great to continue his preparations vesterday morning and enable him to take his place in the line-up at Epsom.

However when Simply Great

nowever when Simply Great did not appear on Newmarket Heath yesterday morning the omens looked bad and later Cecil Heath yesterday morning the omens looked bad and later Cecil had to admit that they had lost the battle. "The injury is responding slowly to treatment but due to deep bruising there is now no chance of him competing" he told me dejectedly. And he went on, "I feel sad for the horse, for his owner, Daniel Wildenstein, and for all of those involved in his preparation because I thought that at long last he had a great chance of winning our first Derby and just needed luck".

Sadly for evertone — bar the bookmakers, who are now on yet another ante-post winner — luck deserted them at the eleventh hour. As far as the Derby is concerned Simply Great's ahsence takes the gift of the gingerbread. What has brewed up into a fascinating race would have been that much more fascinating with him in the field.

The big question now is what

have been that much more fascinating with him in the field.

The big question now is what will Piggott, who has won 13 classics at Epsom — 8 Derbys and S Oaks — ride. The way the wind was blowing yesterday, it looked as though his much sought after skills will be aboard Super Sunrise whose trainer. Gavin Hunter, is expected to clarify the situation by issuing a statement this morning. Yesterday, Piggott was riding to Italy.

When I put it to Hunter yesteday that Edward Hide had said that he had accepted the ride on Super Sunrise over the weekend on the understanding that he would surrender it to Piggott if Piggott became available, Hunter simply replied:

"That is a very fair remark and I cannot say any more". Certainly those responsible for the betting on the Derby are taking it as read that Piggott will be on Super Sunrise because that colt's price

day — to 12-1 by the Tote and to 14-1 by William Hill.

Were Super Sunrise to succeed at Epsom on Wednesday he would continue a remarkable pattern established in the last three years because he would be following the footsteps of both Henbit and Shergar, who won not only the Cheser Vare en route to Epsom, but also the race now known as the Haynes, Hanson and Clark Stakes at Newbury at two-year-olds.

However, while being glad of the ride on one as useful as Super Sunrise. Fizzott must be regretting that Stavros Niarchos booked Yves Saint-Martin to ride Persepolis last week, all the more on since it was Piggott who rode Persepolis wen that colt won the Prix Noailles and the Prix Lupin at Longchamp this spring. Piggott had been looking forward to riding Persepolis in the French Derby next Sunday until Mr Niarchos decided to run him at Epsom instead.

The ride on Super Sunrise became available in the first

Prince in win with Les Diables By John Watson

By John Watson

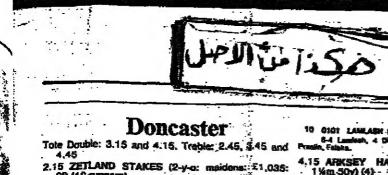

With the Prince of Wales representing Guy Wildenstein's Les Diables Bleus, an unusually large trowd watched the opening contest for the Queen's Cup, at Smith's Lawn, Windsor, yesterday. Les Diables' met the BB's. The BB's started two goals up on handicap. Although they marked well and attacked strongly their inferiority in pony power and playing ability soon showed. Britain's top player, julian Hipworth, playing pivot man for Les Diables, dominated the match, and his side won, 8-6.

Cowdray Park (received one), fielding two Americans. Billy Ylvisakder and Red Armour, were defeated by the squad put together by Mrs Helen Boehm Les Olables and Red Armour, were defeated by the squad put together by Mrs Helen Boehm Les Olables and Red Armour, of Wales (4)

French connection favours Amyndas

By Michael Phillips

A busy week for the start of United Racecourses begins at Sandown Park today. As that company also has Epsom sheltering under its financial umbrella there will be no respite until the four-day Derby and Oaks meetings grind to a balt next Saturday evening.

As far as today's programme is concerned the race for the Brigadier Gerard Stakes should develop into three-cornered fight between Princes Gate, who won the Westbury Stakes over the same course and distance towards the end of April, Amyndas and Kalaglow.

In the meantime Princes Gate who won I doubt whether he will manage to give even as little as 3 lb to the other two. But to predict which of those two will win is not easy. By taking a line through the crack French four-year-olds, Vayraan and Bikala it is possible to argue that there is precious little between them. Vayraan finished four lengths in front of Amyndas in last year's Champion Stakes; Kalaglow finished the same distance behind Bikala in this year's Prix Ganay.

Last year there was only half a length between Vayraan and Bikala in they was a difference of 2lb. On the balance

Spanish Pool in line for Jersey Stakes

By Michael Seely

Three possible Royal Ascot candidates, Spanish Pool, Not For Show and Karadar, scored on a blazing hot afteraon at Baydock Park on Saturday.

Despite going lame a furlong from home, Spanish Pool battled on gamely to resist the challenge of the lightly weighted First Phase in the Cecil Frail Handicap. The winner was hobbling on three legs as an anxious Brian Taylor led Jeremy Hindley's three-year-old into the unsadding enclosure. However, the trained said later in the afternoon: "When we removed Spanish Pool's shore the horse was sound again. A nail must have pricked his foot. All being well, he'll now go for the Jersey Stakes."

The Cork and Orrey Stakes is the target for both Not For Show and Vaigly Star, who inished first and second in the Gus Demmy Stakes. Stating at the surprisingly generous odds of 20-1, Guy Harwood's three-year-old showed all the courage in the world in his victory. Cajun finished a disappointing third. The odds-on favourite seeemed unwilling to try out on the firm ground.

It was interesting to hear from Mrs Henry Cecil afterwards that Ivano and Mr Fluorocarbon would be brought back to a mile at Ascot, where the two three-year-olds will run in the Stakes, respectively.

At Redcar, Indian Trail who Islames's Palace and Queen Annet Stakes, respectively.

 It is always a risky thing to make. Ists of "greats". The arguments over the qualities that make greatness have split families so, in The World of Golf's THE OLD TIME GREATS (BBC 1 11.20pm) Peter Allis is setting himself up as a target for those who will inevitably complain about their particular hero being omitted. Nevertheless, the ten Allis has chosen represent a fair cross-section of styles and all are underlably great but are they the top ten greatest? Argument is surely academic as we watch the flickering film of Henry Vardon, he of the famous grip, the flashy Walter Hagen and the immortal Bobby Jones." Memories are also stirred by film of those still alive, and playing — Sam Snead, Gene Sarazan, Henry Cotton, Byron Nelson, Ben Thompson who must think it a

product of conscious thought. But scientists have discovered that the parts of the brain used to stime movement are active before we have the use of muscles: Also taking part in the programme is the comedian Terry-Thomas, a Parkinson's disease sufferer, who evolute how a surprise on himself.

 A reminder of how good a radio actor was Arthur Lowe comes in a welcome repeat of SOLDIER'S FORTUNE (Radio 4 7.45pm) This seldom played Restoration comedy by Thomas Otway, adapted for radio by Peter Barnes is a magnificent vehicle for the late Arthur Lowe's talents. He plays the pompous and cuckolded windbag Sir Davy Dunce in a play, set in 1680, that follows the fortunes of two professional army officers, in London following the end of the Dutch wars, who are on the look-out for wine, women and song, at the same time avoiding the possibility of matrimony. ibility of matrimony. In the south east, Saturday was almost trouble-free for the police and the ambulance service, but stallholders and souvenir sellers were left out of pocket and disappointed.

Police estimate that fewer than 100,000 attended the Mess at Wembley on Saturday, although many more were forecast. Around 5,000 occupied the enclosures immediately outside the national football stadium national football stadium to pay £150 for a site and instead of the expected towards the end of the day many were reporting takings burger and hot dog caravans of less than £50.

Among those represented were the Quakers, the Methodist Church, the Greek Orthodox Church, Baptist Union, the Church of Scotland, the United Reformed Church, the Church in Wales, the New Testament Church of God and the Scottish Episcopal Church.

The Pope told them he felt there was already a degree of communion between them,

There was some disappointment among the Canterbury crowds when the Pope's vehicle sped past too quickly for most to catch more than a fleeting glimpse of him and communion between them, but that this had to find more route out of the city to be changed at the last moment, depriving many of a chance to see the procession.

The Rev David Miles Board, head of Catholic Information Services said last night that the fine weather and the threat of cancellation of the visit contributed to the turnout being smaller than anticipated. concrete expression. He told of the goodwill the parici-pants had towrds the Roman Catholic Church, and of how this was tempered by objections to certain practices and disciplines, particularly over marriages between Roman Catholics and non-Roman Catholics.

The Pope has not neglected secular issues likely to be of immediate concern to the crowds he has addressed. On arrival at Liverpool he observed that it was a great sea port also, and prayed for the souls of those lost at sea.

The city had known suffering and great poverty, he said, and he described unem-

major problems facing society as a whole." It tended to sow seeds of bitterness, division, and even violence, he declared shortly before his drive to the city centre which would carry him through Toxteth.

Peter Nichols/The Pope's weekend When in Canterbury a Pope stands up

Who was this John Paul at Canterbury? I say this John Paul because he was so different from the Pope whole Becket theme itself which must have gone almost beyond the limits of the emotionally containable. John Paul II I know in Rome that I wonder if we cannot start thinking about the weekend that produced John Paul III.

I suppose all popes are occupationally liable to suffer problems about their own identity. No sooner are they elected than they are acked there in they are asked, there in that awe-some Sistine Chapel, what name they want to adopt for the new life facing them and for the history books.

Karol Wojtyła chose John Paul II to help keep alive the name of his unfortunate predecessor who chose to be called John Paul and died little more than a month later, crushed by the magnitude of the change in his life.

Unlike other modern popes, Wojtyla is often referred to by his real referred to by his real surname, as if his personality is so strong that the rather clumsy pair of names he accepted on election hardly suit him. But he normally leaves no one in doubt that, Karol Wojtyla or John Paul II, whatever you prefer to call him, sees himself in the fullest possible way as St Peter's ible way as St Peter's successor.

Like any other pope, his entry at a formal ceremony at St Peter's brings the insistent tones from the choir of the "tu as petrus". reminding him that "thou art Peter".

He entered Canterbury Cathedral with none of ths circumstantial assurcce. He knew what the programme was but, in emotional terms, did not know what to expect. He looked physically smaller than in Rome, more tense, less sure be-cause the feelings were powerful and no one can be bowerful and no one cases sure quite what will happen when sentiments tell you what you are experiencing-without impressing on you, in the given circumstances, who you are. He seemed somehow honed down to the essentials, just as his address was essentially a scriptural homily. And, a small detail, delivered standing: in Rome a pope sits to speak.

The Becket theme is one which will follow him through his life. I have already saidthat he is like Becket in that he fills whatever role he attempts almost beyond its capacity. But on Saturday it was the

Little more than a year has passed since he almost died from his wounds after the shooting in St Peter's

On Saturday the Pope and the Archbishop of Canterbury commemorated modern martyrs. One was Oscar Romero, the Catholic Archbishop of San Salvador, who was, like becket, murdered at his altar.

For the Pope, however, he was a difficult marryr. Romero looked from Rome to be too much involved with the politics of his unhappy country. there was another inti-mately connected with Wojtyla's development: Maximilan Kolbe, the Polish priest who offered his life in place of a fellow-prisoner in Auschwitz and had his offer accepted.

The commandant asked Kolbe who he was, wanting to know the identity of this perplexing man. The reply was: "I am a Catholic priest."

That reply must bave been turned over many times in the mind of the young Wojtyla and of John Paul II and would explain the iron discipline he imposes on himself and the standards he tries to impose on all his priests.

Canterbury was a great occasion for obvious reasons and the atmosphere of greatness was not missed: That fact will not have escaped the Pope either because if anybody has a sense of occasion it is him.
Usually they are occasions
which he can easily dominate. On Saturday he was the guest, a revered guest, but a man in a totally unfamilar situation.

And throughout, John Paul II must have conby history but by his own personal history, his own personal aspirations.

One effect of his near murder is said to have been to make him more emotive. It is enough to explain that expression on Saturday of deep, sometimes painful, concentration, the intimate Wojtyla, not the famed mover of the masses.

The more familiar figure returned in the evening at Wembley, but there is a chance, a hope, that this introspective Wojtyla may keep coming back to give us glimpses of John Paul III.

The papers

Merseyside yesterday, the Daily Post, Liverpool says the Pope's spiritual goodwill and wisdom, and his theme of reconciliation, have special significance for civic and church leaders as they struggle to overcome the prob-lems which beset the county.

"The voices of dissent have made themselves heard but have been drowned by jubilant crowds. The Holy Father . . has shown concern, love and de-votion as he ministered to the sick and disabled at Speke airport, joined the service in Liverpool's Anglican Cathedral, proceeded along Hope Street, the proceeded along nove Street, the symbol of Liverpool's ecumenical spirit, and delighted 2,000 young people at the Metropolitan Cathedral, All this and so much more has exposed sharply the mean and tawdry aspects of rigotry."

Welcoming the Pope's tour — today he visits York — the Yorkshire Post comments: . "these will be momentous and proud days for the country's Roman Catholic population but the rewards and satisfactions of the visit . . are not theirs exclusively. Virtually all denominations will be gratified to see two great churches reconciled in spirit and joined (even briefly) in Christian prayer.

Nature notes Swallows are building on the

rafters of barns and outhouses. They swoop through a low door into the dark space with perfect confidence, but sometimes when they begin building they mistake the rafters, and start two or three different nests side by side. Corn buntings deliver their jangling song from telephone wires; the males often have two or three mates, with nests in widely separated clumps of thistle or weeds. Nightjars sing in the evening, a thin continuous whire like a sewing-machine, among bracken and low pines; they clap their wings in the air as a mating display at dusk.

Hawthorn flowers tu:n pink as they fade; and the elders, the white hedgerow flowers of June, begin to display their large rosettes. Flower-buds wait to open on the lime trees. Red campion is thick among the tall grass; the small dandelion-like heads of the smooth hawk's beard open on their long stems. Broad-leaved willow-herb is in flower; the leaves of its larger and commoner relatives, the rose-bay willow herb and the great hairy willow-herb, are oushing up steadily.
